

My name is Kendra Harper. I am the Regional Manager for Clark County Broadcasting in Arkadlephia, Arkansas and KWXI Radio, Inc. in Glenwood, Arkansas. I manage two country stations, one Southern Gospel, one Adult Contemporary and One Adult Standard. My stations are the center of local news for all the surrounding communities. We cover all the local events and run family oriented stations. If we were to do something indecent our listeners would run us out of town. I am against this proposed Rulemaking by the FCC. Small market stations are the ones that don't need this, yet we will be the ones most negatively affected by it. Wouldn't a better solution be to use this as punishment for those stations that receive complaints?
Sincerely,

Kendra Harper
Regional Manager
